List of DirecTV channels (United States)

From Wikipedia, the free encyclopedia
Jump to: [navigation](#), [search](#)

Below is a numerical representation of the **current [DirecTV](#) national channel lineup in the [United States](#)**.

East Coast feed / West Coast feed

Some channels have both [east](#) and [west](#) feeds, airing the same programming with a three-hour delay on the latter feed, creating a backup for those who missed their shows. The three-hour delay also represents the [time zone](#) difference between [Eastern](#) (UTC -5/-4) and [Pacific](#) (UTC -8/-7). All channels are the East Coast feed if not specified.

High definition

Most [high-definition \(HDTV\)](#) and foreign-language channels may require a certain [satellite dish](#) or [set-top box](#). Additionally, the same channel number is listed for both the standard-definition (**SD**) channel and the high-definition (**HD**) channel, such as **202** for both **CNN** and **CNN HD**. DirecTV HD receivers can tune to each channel separately. This is required since programming may be different on the SD and HD versions of the channels; while at times the programming may be simulcast with the same programming on both SD and HD channels. Part time [regional sports networks](#) and [out of market sports packages](#) will be listed as ###-1. Older [MPEG-2](#) HD receivers will no longer receive the HD programming.

Special temporary channels

In addition to the channels listed below, DirecTV occasionally uses temporary channels for various purposes, such as emergency updates (e.g. [Hurricane Gustav](#) and [Hurricane Ike](#) information in September 2008, and [Hurricane Irene](#) in August 2011), and news of legislation that could affect subscribers. The News Mix channels (102 and 352) have special versions during special events such as the [2008 United States Presidential Election](#) night coverage and during the [Inauguration of Barack Obama](#). During the [Olympic Games](#) there are channels reserved for showing events, that may have been cut off by [NBC Universal](#) networks for time constraints.

List of AT&T U-verse channels

From Wikipedia, the free encyclopedia
Jump to: [navigation](#), [search](#)

This is the national television channel lineup for [IPTV](#) and [VDSL internet service provider AT&T U-verse](#), as of October 22, 2011.^[u] Some channels have both east and west feeds, airing the same programming with a three-hour delay on the latter feed, creating a backup for subscribers who may have missed a particular program; the three-hour delay also represents the time zone difference between [Eastern](#) (UTC -5/-4) and [Pacific](#) (UTC -8/-7).

All channels are the East Coast feed, if not specified; both the east and west coast feeds of certain channels are available to all subscribers where noted, otherwise only the coastal feed serving their region of the United States (east coast feed for the [Central](#) and Eastern time zones and the west coast feed for the Pacific and [Mountain](#) time zones) are available.

- ² Subscribers can receive most regional sports channels exclusively with the U450 package; otherwise, regional sports channels serving the subscriber's particular region of the U.S. are only available to customers who subscribe to all other packages (except U-family). Some regional sports networks are only delivered to areas where that network's teams are in-market. HD feeds of regional sports networks are only available in the RSN's market, except for YES and SportsTime Ohio whose HD feeds are distributed nationally. As of December 15, 2010, U-Verse changed offering of RSN's to where the SD feeds are in-market only in U100 except for YES, SNY, and SportsTime Ohio which are available nationally in U450. The HD feeds of the regional sports networks are available nationally in HD extra except for those which are only distributed in-market. Chicago Cubs Multiview (WGN home games only) is open to all subs with U-100 blackouts may apply.

[\[edit\]](#) Channels canceled before launch

- XM announced in April 2006 that in late spring/early summer six regional News & Talk channels (XM 134-XM 139) would be added and provide regional news coverage for every area of the continental US. These channels were to have been provided by [Clear Channel Communications](#) and were to have been located in "Regional News, Talk & Music Channels." According to Jon Zellner via a subscriber email, Clear Channel decided to forego the launch of these channels.^[3] The original plan was to create a set of regionalized, five-minute newscasts. Each newscast was to carry 90 seconds of advertising, with the 3:30-minute balance devoted to regionally targeted news.

The channels were to be titled:

- - **Northeast News and Talk**
 - **Southeast News and Talk**
 - **Midwest News and Talk**
 - **Middle America News and Talk**
 - **Southwest News and Talk**
 - **Northwest News and Talk**

[\[edit\]](#) Channels of unknown status

- XM Announced on 1/31/06 that they would be adding Traffic & Weather channels for Cincinnati, Cleveland, Denver-Boulder, Milwaukee-Racine, Portland, Providence-Warwick-Pawtucket, Sacramento, San Antonio and Wilmington, DE to their NavTraffic product during the first quarter 2006.^[4] Rumors that a Traffic & Weather station could be dropped for Cincinnati due to the addition of [WLW](#) on [XM](#) channel 173 were unfounded as WLW was dropped from the XM service in 2009.

[\[edit\]](#) Seasonal/holiday channels

These channels are season- and holiday-based, and are only around for a part of the year. It is not uncommon that they take the place of an existing channel.

- **Holly** - Holly is one of Sirius XM's annual month-long [Christmas music](#) channels that plays Christmas songs with an emphasis on up and coming singers. Its playlist changes from what one would find on an FM Adult Contemporary station at Christmas time to what one would find on a station aimed at tweens and teens.
- **Holiday Traditions** - Holiday Traditions is not a traditional Christmas channel per se, but instead is narrowly focused on seasonal pop recordings from the 1940s to the 1960s.
- **Holiday Pops** - This holiday channel plays choral and orchestral music with a Christmas theme. It replaces [Sirius XM Pops](#) in December and is therefore presented in [XM HD Surround](#). Formerly known as "Pops Holiday Classics" (2005) and "A Classical Christmas" (2006–07).
- **Country Christmas** - This channel features Christmas-themed country music. It previously aired on XM as "A Nashville Christmas" (2005) and "Music City Holiday" (2006–07).
- **Radio Hanukkah** - This channel was debuted in 2006 for the [Hanukkah](#) celebration. Radio Hanukkah features the best in Jewish music, comedy, Broadway, talk and kids programming. This was the first satellite radio channel dedicated exclusively to Jewish culture.

The following seasonal channels also aired on XM in past years.

- **Special XMas** - From 2001-07, this seasonal incarnation of the defunct [Special X](#) channel featured novelty holiday music, from songs by the likes of Alvin and the Chipmunks and Barney, to parody songs from Bob Rivers and Weird Al Yankovic, to the more grown-up xL tastes from punk rock bands. Special XMas also aired online and on DirecTV.
- **Bing Crosby Christmas Radio** - Airing in 2008 and 2009 and hosted by members of the Crosby family, this channel featured more than twenty years of vintage Crosby radio specials.

[\[edit\]](#) XM on AOL Radio

On 2008-04-30, the XM channels were no longer offered on [AOL Radio](#),^[s] as AOL switched to CBS Radio for some of its content, thus ending a partnership between AOL and XM.
